

“Quite simply, NBS provides the best total practice management automation solution we needed. We absolutely love the system and the company, and we still cannot believe how proactive NBS is with our billing. They ensure complete client satisfaction” - David Z., DC

- NBS assures a smooth and predictable transition for the start-up, as well as for the established practice
- Rapid implementation in weeks, not months or years.
- Every claim runs through a series of quality control checks prior to submission, resulting in fewer rejected claims
- Our flexible work environment allows you to deal directly with the owners when you have questions or concerns regarding your practice.
- Most of the staff at NBS have been with us for more than a decade, giving us amazing experience to service your accounts.

- Technology advanced software access
- Electronic document chart storage
- Free up valuable staff time for patient care

Comprehensive - Full Circle Billing Services

THE ADVANTAGES OF OUTSOURCING BILLING SERVICES

Outsourcing your billing, coding and account management services can offer a number of benefits. Our clients benefit from increased profits, managed receivables, and timely, accurate reimbursements.

Outsourced medical billing allows physicians to really focus on the truly critical and needed care of the patients. All of the ever changing insurance rules, makes it more difficult to do in house medical billing, collections and timely receipt of payments.

Because our services are contracted, we can literally save our clients thousands of dollars monthly in labor costs, while improving the flow of claims, accounts management, and information security & accuracy.

We also provide a secure virtual private network (VPN) connection with redundancies to provide a reliable secure connection to our servers.

HOW DO WE DO IT? IT'S SIMPLE... EXPERIENCE!

At NBS, we operate a specialized, focused business, and utilize the benefits of our experienced staff which allow us to avoid the common pitfalls, that often hinder internal staff.

We know how to get claims processed quickly and efficiently. We understand the process and cycles of the billing and account management process which allows us to streamline the submission of claims with the requirements of each carrier.

Practices interested in being more cost-effective and simple find that outsourced medical billing is an extremely beneficial avenue.

Most physicians that outsource to a reputable medical billing company agree, that it was the best financial decision they have ever made.

Your financial strength is directly related to timely patient billing and insurance reimbursement.
